EDITOR'S FOREWORD

The sons of Symon Tootill of Ringstead, England were Richard, John and William who came to America in 1635 on the Planter along with their wives, children and widowed mother, Isabel. I found Alva M. Tuttle (or AMT as I refer to him throughout) and his book "Tuttle-Tuthill Lines in America" because my husband is descended from two of William's sons--John-W1 and Simon-W5.

This discovery led me to the realization that the book needed to be made available to the general public as he had made a very limited printing back in 1968. He did not copyright the book and it went immediately into the public domain as soon as it was published. He was interested in the research and the genealogy but not the publishing. He wanted desperately for someone to take hold and publish a book for him. I doubt if he realized it would be twenty years before someone (me in this case) would do just that. I have tried to make the kind of books he would have liked.

AMT gathered information on every Tuttle-Tuthill he could locate in America from his own research and from a small army of co-compilers and contributors. He lists all in a compendium. My dictionary defines compendium as a "concise and comprehensive summary" which just exactly describes his book. He listed all of them alphabetically, more or less, and then by birthdate, more or less in 740 pages 8-1/2 by 11 of very small type. Then he abbreviated nearly every word in the book. The list of abbreviations fill six pages and runs to almost 300 entries.

I have gone through and located all the descendants of Symon and put them on Family Group sheets, expanded the abbreviations back into English and added my own research wherever appropriate.

FAMILY GROUP NUMBERS:

First the letter of the son of Symon, who is the immigrant ancestor: R=Richard, J=John, and W=William. William's descendants are in Vol I, Vol II, and Vol III. Richard and John are in Vol IV. After the letters will appear numbers. These numbers refer to Family Group (FG) sheets. Only sons who married and produced children get a FG and a number. These numbers do not refer to the birth position but simply a 1-2-3 etc order. To locate a son's birth position look on his father's FG sheet. Read the numbers from right to left to figure out who belongs to whom. A quick look or count back will show how many generations back to SYMON-3* who is the third generation I know about in England and gets an asterisk because he never came to America.

No females have FG sheets or numbers because they cannot continue the Tuttle name. Neither will sons who died young, did not marry or had no children. Actually who got a FG depended on space. I didn't want to crowd too many generations on one page. Also people (male and female) were not put in the index if they didn't

marry of have children because they will not have descendants to look for them. I made an exception for contributors because someone might be looking for them. Sometimes I put in an unusual name even if they didn't marry or have children because I once found an ancestor because he had a brother with a most unusual name

WOMEN are always listed by their maiden name if known. The name of their husband (or husbands) and their children will be in the notes following their data on their father's FG. I have not carried a daughter's descendants beyond one generation usually. AMT made no bones about the fact he would put in any amount of information if a person contributed to a pre-publication subscription. I am under no such burden and have decided to cut off with a daughter's children since that takes them beyond a Tuttle genealogy.

Sometimes the numbers get unwieldy but think of it this way: If you locate your line and find 12 numbers you have just found 15 generations of your family--12 in America and 3 in England. Maybe it will be worth it to find your folks.

A name may appear on a page more than once but it will be listed in the Index only once. Read carefully!

I am filled with admiration for all the work AMT put into his book. It is quite humbling to think about and it has been a beacon to me whenever I grew weary with my own job. "Alva did more" has been my slogan. I hope you find a name with many numbers.

Gwen Campbell
Keno, Oregon

COMPILER'S FOREWORD

[Note by Editor: I have selected and edited notes throughout his book to make up this foreword]

APOLOGY: This book is, in many ways, far from the publication, both in content and appearance, which I have visualized in my mind during the years I have been assembling the data. Had I published ALL the data in my files in the manner I dreamed of, this would rival the Encyclopedia Britanica in size and far exceed it in unit cost, because unit cost decreases as the number printed increases and the Brittanica is not printed in editions less than 1000 in quantity. I have been forced to adopt every expedient I could devise to decrease the space needed to present the data herein. Most of these expedients have been explained on pages 1 to 4 and 7 but a few are discussed below. [I have not put in the explanations he refers to since I eliminated those problems for you.GC]. Doubtless some readers will object to one or another, or perhaps all, of these space and cost saving expedients. Many will dislike the small type closely crowded on large pages but it is far more legible than the faded old handwritten records from which I and many of my contributors have extracted much of the data. Others, especially librarians, will want a much more sturdy bind. Many will detest the many special abbreviations and the brief method of statement used. Many will complain because I have omitted most all of the long lines of female line descendants which they have sent me. I myself regret especially the elimination of practically all biographical data and of many interesting anecdotes and quaint statements found in old records. I apologize for all of these things, as well as others not mentioned here. I regret them all but they were all necessary because this has been published "on a shoestring". At this writing when little but the binding remains to be done, I am still faced with a deficit of considerable magnitude unless and until I can sell the very limited number of extra copies I can afford to have made. Yes I apologize, although I do not feel that the fault is mine It lies with the many thousands of living descendants who must have seen one of my circulars, heard about my project at one time or another. If 5% of them had seen fit to make an advance deposit subscription for one copy, many of these things could have been avoided.

DO YOU WANT A SECOND VOLUME? It is inconceivable to me that I could have processed the huge amount of data contained in this book and prepared it for publication, without making a considerable number of errors, and it seems unlikely that errors were not made in the process of getting it in print. Also it seems highly doubtful that the many sources from which I obtained the data were free of error. The most casual perusal of almost any page of the [book] will reveal that many records of persons therein are far from complete. Many are little more than a name and an estimated birth date. Also, I am quite sure that a considerable number of TUTTLE-TUTHILLS born before the present century began are omitted entirely, and I know that a large number of those born in this century are omitted because they

or their nearer relatives failed to respond to the many thousands of requests for data which I and many of the contributors have been sending out for years, or to the published requests I have inserted from time to time in genealogical periodicals. This suggests that ample further data awaits collection for a second fairly large volume, if only those records not in this or those for which corrections or additions are needed are included. I am quite willing to analyze and organize the new data and set up card files for it like those which I prepared over a number of years for the material in this book, if only others will collect it. I am particularly anxious to find more about those persons born before 1850 whose records are incomplete in this volume or who are omittted entirely, especially those living in the colonial period. It will take very skillful and arduous research to get such material, but it is a most interesting activity to those who are capable of doing it.

What I definitely will NOT do is have anything to do with the publication or sale of the second volume unless it is far better financed from the start than this one has been. Indeed, even if it were quite adequately financed, I would much prefer that other persons take over the publication and sale of the second volume. I do not enjoy such work anyway. I like to analyze and orgaize genealogical data, also to collect it, but I'm getting too old to do much travelling to find it as I have done for many years. If others will collect it, I will gladly act as the central receiving point or clearing house for the data and will take it to the point where its publication becomes routine [routine!] work. I would much prefer that others take it from there!

[He kept all his data on a card index file. He would have loved computers]

My interest in genealogy began in the year 1913, when at the age of 13 years, having noticed a genealogical article in a newspaper, I began asking my parents questions about their ancestors which soon exhausted their limited knowledge of the family tree. These questions led to further research and correspondence by myself and my parents with my grandparents and several great aunts leading to some further information about my ancestors some of which might not be known had my curiosity not been aroused at that early age. Although I never worked seriously at it until the 1930's, from 1913 to 1916 and occasionally in the 1920's I wrote letters to TUTTLES whose addresses I was able to come by and to several localities over the country bearing the Tuttle name. Some of these letters brought data on Tuttle lines other than my own which might not have been available had I not made those early inquiries. Thus I can claim that I started my research some three years earlier than did LTV [Lotta (Tuthill) Vail], who started in 1916, although I certainly did not work as steadily as she did from the beginning.

The primary aim in all my work has been to collect as much genealogical data as possible about TUTTLES in America of all lines, but especially of those lines whose ancestors were on this side of the Atlantic prior to the 19th Century, and to connect the lines of descent as much as possible. Great effdorts have been made to collect all published material and all from public and private

documentary sosurces and memories of living persons. Published and private sources and a few others, insofar as I know them are indicated by the list of reference symobls, but the reader should be aware that in the beginning I was not always careful to keep a precise record of the exact source of every item I collected although I did do this carefully during the last 20 years of my work. LTV more than once told me that she for many years did not make careful note of public or private sources from which she got her voluminous material and many, indeed most, of the others who gave me data did not specify where they got all their material. Public records such as censuses, town and county records, military records, church cemetery and tomstone records, etc. are indicated at each point in the material, when known to be such, rather than by reference symbols which are used mainly for published and private sources.

For several years my wife and I spent from 3 to 6 weeks every year (the equivalent of a year in all) searching censuses in Washington, D.C. and many others have helped search the censuses for Tuttle and Tuthill households. In particular LTV had a great deal of census data, especially for the 1850 through 1880 censuses, and Sylvia (Tuttle) Howells (381) searched several entire states' 1860 and 1870 censuses among her other valuable contributions.

[He gives three pages of notes about the value of different sources of data]

NOTES ON THE NAME AND THE EARLY AMERICAN LINES

There seems little doubt that this family name originated in the British Isles, probably in several different instances. That is, I doubt that all of the names stem from a single ancestor bearing this family name. Likewise there seems no doubt that it, like numerous other surnames, originated as a "place name"--in this case from a hill or observation or look out--a Tot-Hill, Tut-Hill, etc., said by some to come from the old Saxon word "teotan" meaning "to look out". There were numerous places in England called Tothill or Tuthill, etc. as early as the 10th or 11th centuries. Tuthill, near Thethford, Northfolkshire is said in London Notes and Queries to have been so called in A.D.871. As with names and ordinary words, the spelling varied greatly in the British Isles in the early centuries and indeed in America during the colonial period. It had only begun to standarize mainly to TUTTLE or TUTHILL in the later decades of the 18th Century in America, although well into the first half of the 19th Century in the United States I have found in census and other contemporary public records numerous instances of the change of TOOTLE, TOOTTELL, TOOTHILL and TUTHILL to TUTTLE in some line or lines. . .[he gives several instances]. Also a tendency in early records has been noted to spell names of persons who definitly were TUTTLE as TURTLE, but TURTLE is a family name in its own right and most TURTLE records have been omitted.

About 1910 a remarkable manuscript family history was prepared by the late Alain C. White, Esq.; many of these pedigrees were carried back in England through the interest of Mr. White's brother-in-law, Mr. P.C.Morris, a London barrister, and the cooperation of

the late Henry Farnham Burke. The English lines were approved by the College of Arms and include the ancestry of William Tuttle. Through the kindness of Gen. John Ross Delafield, a photostatic copy of the Tuttle Pedigree has been made available to the present compilers.

Miss Della Gay Tuttle of Salt Lake City spent many hours studying the microfilms of the Northampshire wills which are available at the Genealogical Society of the Mormons in Salt Lake City. These wills, even if in good and clearly legible penmanship (which they are not) would be difficult enough to read in their archaic Old English with the very variable spelling of not only names but of many ordinary words which prevailed in those days. Miss Delia G. Tuttle was kind enough to furnish me photocopies of these wills and that of John Wells and typewritten copies of her carefully developed translations or decipherings of these wills and I am greatly indebted to her for this very important information.

I am practically certain that the John Tuttell who came to Boston, MA on the "Planter" was a brother and not a first cousin of Richard and William Tuttell who came with him on the same voyage and I have shown him as such with a "probably" to indicate a very slight degree of doubt. In my opinion and also that of Miss Delia Tuttle, John of the "Planter" was omitted from the will of his grandfather John Wells because of the grandfather's disapproval of John's marriage to the widow Joanna (Antrobus) Lawrence who was four years older than John and had four Lawrence children.

The will of Symon Tuttell (in his will) or Tootill and Tootell (In John Wells will and other documents) was dated 19 Dec 1627 and names FIVE sons: Richard, John "my second sonne", Thomas (who was deceased when will was drawn), Simon and William. Also an addition has been squeezed in the will in a finer pensmanship, obviously made by a different scribe at a later date (Abigail was born about two years before Symon's will was proved in 1630) leaves "to my sunn John, his Daughter Abigaill, five pounds at the age of fifteene years."

The will of Thomas Tuttell or Tootell [brother of Symon-3*] was dated 14 Jun 1639 (over four years after the Planter had taken the three Tuttells to Boston MA) and proved in 1640, leaves to "John my eldest sonn". The nature of the bequests and other points in this will indicates that this John who was baptized 04 Jun 1596 at Holcot, Northamptonshire was a farmer (John who came on the Planter was a mercer) and strongly implies that he was in England on land neighboring that of his father Thomas in 1640 when Thomas' will was proved in Northamtonshire. Other items in early MA records and records and writings also imply that the Planter Tuttells were "three brothers" and I am quite convinced that this is correct. Clearly there were two John Tuttells, first cousins, and both born 1596 c.

All the three Planter Tuttles had, and still have, numerous male lines of descendants in America. Here for the first time is published a very considerable account of most of the male lines from Richard and John.

NOTES: Elizabeth was co-executor with Anthony of his will in 1589. He was supervisor of the will of Richard Beare of Woodford, 03 Nov 1579 and a witness to the will of Elizabeth Lyncoln, 1556. His own will proved 11 Mar 1589/90 at Peterborough and named the following children:

1. SYMON-3*
b. 1560 c. Ringstead, Northampton,Eng.
m.
bur 15 Jun 1630 Ringstead, Eng

m. Isabel Welles
b. 1565 c.
d.
Source: See FG 3*

2. Anthony

3. Elizabeth

4. Ellen

5. Mary

6. Frances

7. Thomas
b.
m.
d. Will proved 12 Dec 1640 Northampton, Eng.

m. Anne _____
b.
d.

NOTES: Lived in Holcot and afterwards in Woodford, both in Northampton. His will dated 14 Jun 1639, named his three sons, and made his wife and son Robert co-executors. CHILDREN: (1) John, bapt at Holcot, 04 Jun 1596; (2) Robert, bapt at Holcot, 18 Mar 1598/9; (3) Symon

FAMILY GROUP NO. 3*

TOOTILL, SYMON-3*
b.1560 c. Ringstead, Northampton co, Eng.
m.
bur 15 Jun 1630 Ringstead, Eng.
Father: TOOTILL, RICHARD-2*
Mother: Elizabeth

m. Isabel WELLES
b. 1565 c.
d.
Father: John WELLES
Mother:
Source: AMT

NOTES: John Wells mentioned Isabel in his will in 1618. Symon was mentioned in his father's will in 1589 and in that of his father-in-law in 1618. The will of John Wells also named all four of his Tuttel grandsons. Symon was supervisor of the will of Matthew Harris of Woodford, 05 Nov 1600. His own will was proved at Northampton. His widow accompanied her sons on the Planter in 1635, but no record of her has been seen in this country, and probably she did not long survive.

NOTES: Orphaned very young; perhaps son of John Tuttle; the only Tuttle record in Warren Co OH Probate Court to 1959: 19 Feb 1813: I, John Tuttle, have deposited several notes due me with John T. Jack. If I should not return in 6 months. I want said Jack to collect my debts & give to my parents. If either of them should die the surviving one to get 1/3 the remainder equally divided among my brothers & sisters: Wit. Robert Lee, Wm. Guthrey; no other persons named in this document & no further record of its execution. I did not list this John Tuttle in the [book] as I have nothing more about him, but all early Tuttle in Warren Co definitely descendants of Ephraim [W111]. On 1850, 1860, 1880 Defiance OH census. Living 1883 Definance OH, sometimes post master & county treasurer. CHILDREN: All born Defiance OH
(1) Andrew Tuttle b. 1846; 1880's merchant Florida - 3 children; m. 1870 Elizabeth Long. SON: Andrew L. Tuttle b. 1870's; m. Sarah Kniss - SON: Andrew L. Tuttle resided 1962 New Orleans LA [Contributor 610]

FROM AMT LIST OF NUMERICAL REFERENCE SYMBOLS PLUS ABBREVIATIONS

I regret that I have not given full specifications (full title, full names of authors, date and place of publications etc) for the published references cited in this list. My first reason is the severe financial restriction, mentioned at several points in this work, which has forced me to condense everything as much as possible. Often, however, especially in my earlier years of research, I did not take down all the information when hurriedly taking notes in libraries. Several of my collaborators, from whom I have obtained some of these references, had the same experience. A reader who wishes to learn more about my published references will find that any librarian can usually find the information, perhaps with a bit of correspondence needed. (AMT)

I have included references to sources listed in AMT's Abbreviations along with my own. [GC]

AG - American Genealogist, periodical published at New Haven CT by Donald L. Jacobus
ALB - Data from Mrs. A. L. Bentley of Perrysburg OH
AMT - Alva M. Tuttle or his book, "Tuttle-Tuthill Lines in America" [descendant of R1111313121]
BR - Bible records
CCH - Congregational Church; 1CCH means First Congregation Church, 2CCH means Second Congregational Church, etc.; similar symbols are used for churches of some other denominations
CCT - Conneticul Colonial Records
CFH - Campbell Family History by Gwen Campbell 1988
CmTF - Children mentioned in TF
CWT - Notes and papers of Charles Wesley Tuttle most of which I did not see but GFT had copies; some of this data was published in TF, NE67 and the Dover Enguirer
dEph - This symbol is used to denote a person whose father I do not know but who is, I believe, based on very convincing circumstanial evidence, a descendanta of Ephraim Tuttle [W111]
DLJ - Donald L. Jacobus, the famous CT genealogist or data in his files or in letters to me (AMT)
GC - Gwen Campbell
GFT - George Frederick Tuttle - This symbol in the Sources usually denotes data from the 7 large boxes of letters, papers, notes, newspaper clippings, etc, which he accumulated between 1883 when TF was published and his death in 1904; these are now in my possession. Miss Berenice Tuttle gave them to me 1952. It is most fortunate that they were preserved by The Tuttle Publishing Co. Rutland VT until that time. (AMT) [descendant of W52121]
GH - Genealogy & History - a periodical published for some years in Washington, DC, usually cited with an item number
HT - Items from Genea column of Hartford CT Times
LTV - Lotta (Tuthill) Vail
MdTF- More descendants in TF
MHM - The Maryland Historical Magazine
MHR - The Maryland Hall of Colonial Records on the St. John's Campus, Annapolis
MM - Monthly Meeting of Friends (Quakers), usually preceded by the name of the locality of the particular Meeting cited
NA - National Archives
NC - Newspaper clippings

NCCSR - North Carolina Colonial and State Records
NE - The New England Historical and Genealogical Register, usually with volume number suffixed
NGQ - The National Genealogical Society Quarterly
NHM8 - The New Haven Magazine, Volume 8
NJA - New Jersey Archives and New Jersey Historical Proceedings
NJW - The published New Jersey Wills
NWQ - Northwest Quarterly
NYGB - The New York Genealogical and Biographical Record
R - Data from Revolutionary War pension file of National Archives
SHQ - The Somerset Historical Quarterly, New Jersey
T - Tombstones
TF - The Descendants of William and Elizabeth Tuttle by George Frederick Tuttle, Tuttle & Co, Rutland, VT, 1883; references apply to the complete volume of 49 plus 754 pages, not the smaller volumes omitting most of the first 49 pages and most of the Appendix and Addenda, several of which were made and sold. (AMT) [descendant of W52121]
VMR - The Virginia Magazine of History and Biography
VTM - Data collected by Virginia (Tuttle) Merrill much of which, as with many of my contributors, is credited to sources from which she got it and not to this reference symbol. (AMT)
WMQ - The William and Mary Quarterly
() - Information in parenthesis, [except GC numbers], are from AMT
[] - From Gwen Campbell to clarify or add further information.

Tuttle Family in America

Edited by Gwen Campbell

The sons of Symon Tootill of Ringstead, England were Richard, John and William who came to America in 1635 on the Planter along with their wives, children and widowed mother, Isabel. Their descendants are listed in four volumes of "Tuttle Family in America" (paperback).

Alva Maurice Tuttle was a descendant of Richard and began collecting information on his family in 1913 and never stopped. Along the way he also began getting information on Tuthills and many unrelated Tuttles. He decided to publish a book that would cover any and all Tuttle-Tuthills that he could locate from his own research and from a small army of co-compilers and contributors.

He listed them all in a compendium, "Tuttle-Tuthill Lines in America" which he published in 1968. My dictionary defines compendium as a "concise and comprehensive summary" which just exactly describes his book. He listed all of them alphabetically, more or less, and then by birthdate, more or less in 740 pages 8-1/2 by 11 of very small type. Then he abbreviated nearly every word in the book. The list of abbreviations fills six pages and runs to almost 300 entries. He did not copyright this book and it went immediately into the public domain. He only published a few copies of this book - enough for the pre-publication subscription and a few extras.

I have gone through and located all the descendants of Symon and put them on Family Group sheets, expanded the abbreviations back into English and added my own research wherever appropriate.

I am filled with admiration for all the work AMT put into his book. It is quite humbling to think about and it has been a beacon to me whenever I grew weary with my own job. "Alva did more" has been my slogan. I hope you find your Tuttle ancestors here.

BOSTON PUBLIC LIBRARY

The sons of Symon Tootill of Ringstead, England were Richard, John and William who came to America in 1635 on the Planter along with their wives, children and widowed mother, Isabel.

Alva M. Tuttle gathered inforamtion on every Tuttle-Tuthill he could locate in America from his own research and from a small army he called co-compilers. He lists all in a compendium. My dictionary defines compendium as a "concise and comprehensive summary" which just exactly describes his book. He listed all of the Tuttles and Tuthills alphabetically by first name, more or less, and then by birthdate, more or less in 740 pages 8-1/2 by 11 of very small type. Then he abbreviated nearly every word in the book. The list of abbreviations fills six pages and runs to almost 300 entries. Besides all this he has a list of 33 pages of sources.

I have gone through and located all the descendants of Symon and put them on Family Group sheets, expanded the abbreviations back into English and added my own research. I have given numbers to all these Tuttles to help keep track of them and made an index for every volume. I have tried to identify the sources wherever possible.

Good hunting!
